

Bike Rack for Car Boot

- This bike rack allows you to hold up to 3 bicycles vertically in the car boot or utility vehicle.
- It is necessary to remove the front wheel from the bike and attach it to the support using the fork.
- Suitable for forks between 70 mm and 130 mm distance.
- The bike rack swings and slides from left to right in order to correctly position the bikes leaving space to place the handlebars in the car boot.
- Straps allow you to attach the removed wheels to the bike frame during the journey to prevent them from moving around in the car boot,
- Also supplied with a strap with hooks to secure everything in the boot by means of the original tie-down buckles that are present in the boot of the car.
- Practical for all your sporting bike outings with friends or family,
