

# Versatile Footrest For Cyclists and Pedestrians

- An innovative device offering practical and comfortable support at traffic lights.
- It allows cyclists to rest their foot at pedal height, avoiding the need to touch the ground. This supports a quick and stable start when the light turns green.
- While waiting, cyclists can rest their hand or arm on the support rail and place their foot on the footrest.
- A versatile and ergonomic product, also designed to serve as a lean-on seat for pedestrians.
- Advantages:
  - Enhanced comfort: Provides optimal posture during stops
  - Improved safety: Reduces the risk of slipping or falling
  - Quick and stable restart: Enables cyclists to move off smoothly without losing balance
  - Versatility: Suitable for both cyclists and pedestrians
  - Contribution to sustainable mobility: Encourages urban cycling and helps reduce city carbon emissions

## Technical Description

- Dimensions: 80 x 40 x H 119 cm – Seat height 75 cm
- Steel tube: Ø 40 mm, thickness 2 mm, zinc-coated and sandblasted black painted
- Mounting: Plate with 8 screws (not included) – Holes Ø 12mm
- Weight: 13 kg
