Pedestrian crossing safety figure

Help drivers spot areas where children cross.

Selling Points

- **Encourages drivers to slow down**: designed to alert motorists as they approach pedestrian crossings and places frequented by children, such as schools, nurseries and leisure centres.
- **Enhanced visibility in low light**: reflective strips help drivers see the figure clearly in the early morning, late afternoon and during the winter months.
- **Quick and easy installation**: easily installed on pavements and alongside roads to help improve pedestrian safety.
